

TORFLOW QUESTIONNAIRE FORM

Customer		Reference	Date
Item No	Qty	Tag No	

Fluid to be measured	Gas / Liquid / Vapor
Operating Density or	Molecular weight
Product Specific Gravity	Compressibility Factor

DP output connection size (standard 1/4" BSPT male):

Maximum flow rate:	at normal or actual conditions*
Normal flow rate:	at normal or actual conditions*
Maximum pressure:	*Gauge or absolute
Working pressure:	*Gauge or absolute
Maximum temp:	Working Temp:

Pipe internal diameter / Duct internal dimensions:	
Wall thickness:	Pipe Material:
*Lagging Yes / No	Thickness:

Flanged units only - *PSM to supply mounting hardware Yes / No		
Existing mounting hardware or supply by others:-	Flange size:	Rating:
Standoff dimension from outside of pipe wall to flange face:		

PSM to supply DP valves *Yes / No	Material:	Size:
-----------------------------------	-----------	-------

Hot Tap units only - PSM to supply Isolation valve *Yes / No	If yes Type:
Material:	If supply by others face to face dimension:

*Delete as applicable
